EXPERIENCE

SKYZDALIMIT.CO.UK

- Brochure website built for a theatre charity based in Omagh
- Client can edit website content with Contentful CMS
- Collaborated with Skyzdalimit to understand and establish client requirements
- Ranks on the top of the first page of Google for "Skyzdalimit Omagh" and was optimised for all of the relevant keywords

LIAMMCALLISTER.CO.UK

- This site allows potential clients to view my portfolio of projects
- Contact form validated on the server with PHP
- CSS and JavaScript concatenated and minified using Gulp
- Built with Bootstrap, Sass & jQuery

MOVIE DATABASE SEARCHER

- App that allows users to search OMDB's database
- Fetches data using OMDB's API
- Movie name, date and poster are returned
- Built using React.js and styled with CSS

CUPPUCCINO CAFE WEBSITE

- Design based off Webflow's Cafe template
- Scroll animations built with AOS.js
- Strip.js used to create the gallery lightbox
- Built with HTML, Sass & jQuery

JENKINS SHIPPING
Logistics Co-ordinator (December 2021 - Present)

- Scheduling and coordinating as a team of 6 for 50+ clients, including several multinational organisations.
- Effectively communicating with both internal and external stakeholder to ensure the prompt delivery and retrieval of clients stock
- Working under pressure to meet tight deadlines in an efficient manner, whereby removing the risk of increased charges to clients or the company
- Providing weekly KPI updates to senior management team on inbound and outbound operations
